Genoua, August 21.

THe 18th Instant the Doge having finisht the time of his Government, went, according to custom, on foot from the Palace to his own House, accompanied by all the Nobility and other Persons of Quality. Since there have been several meetings of the Nobility about the Election of a new Doge; and in all appearance Signior *Pietro Durazzo* will be chosen. Three days ago arrived here four French Galiots from *Tripoli*, by whom we have an account that the Fleet commanded by the Mareschal *d'Estree*, was gone from thence for *Tunis*. This week sail'd from hence the *Samuel and Thomas*, the *Mauritania*, the *Elizabeth*, and the *Success* for *Leghorn*. The *Violet* is now in this Port, bound for *Palermo*.

Milan, August 15. Our Governor has Reformed the Regiments of Swissers in the Service of this State, having given them 14000 Crowns for a month and an halfs Pay, according to the Capitulation that was made with them when they were raised. The Neopolitan Regiment commanded by the Marquis *Grotola* is likewise Reformed, and the Soldiers Incorporated in that whereof *Marco Antonio Colonna* is Colonel. We are told from *Turin*, that the Duke of *Savoy* has named the Count *de Magliano* to go and make his Compliments to the Emperor upon the Marriage of the Elector of *Bavaria* with the Arch-Dutchess.

Venice, Aug. 25. The Master of a Vessel, which arrived here two days ago, reports, that touching at *Corfu* he heard there, that the Forces of this State had made themselves Masters of the Town of *Coron*, but that the Castle, which was very strong, held out still, notwithstanding the Count *de St. Paul* had with 6000 men defeated 8000 Turks which came to relieve them, 1500 of the Enemy being killed upon the place, and several pieces of Cannon and all their Baggage taken. The same Account we have by the way of *Otranto*. This week likewise arrived here a Vessel from *Spalatro*, bringing Letters for several Merchants of this City, which speak of Signior *Molino*'s having obtained a great Victory over the Turkish Fleet; and add, that the Captain Bassa was dangerously wounded in the Fight; but notwithstanding the several Confirmations we have of these happy Successes of the Arms of the Republick, the Senate have not yet received any account of them from their Generals. Several new Gallies are fitting out here, which will be sent with the next Convoy to the Fleet. The Senate it's said are treating with the Elector of *Saxony* for more of his Troops. On Sunday last Signior *Victor Correr* had conferred upon him the Dignity of Procurator of *St. Mark*, he paying 25000 Ducats for the same.

Cracow, Aug. 9. The last Letters from *Leopol* gave an account, That there were then about 25000 men of the Forces of this Crown at the Rendezvous near *Gliniani*, and that the rest of the Troops were marching thither with great diligence: That the Crown General commanded the Army; which would in few days be joyned by the Forces of *Lithuania*: though there is a report that these pretend to act separately under their own General, in case the King does not come himself into the Field. They write from *Podolia*, that the Sieur *Lesnicki* has defeated a great Party of Tartars who had made an Incursion into that Country, that about 300 of them were killed upon the place, and a great many Christians, whom they had made Slaves, released. That the Bassa of *Miedzibos* has written to the Governors of the most considerable places belonging to this Crown in *Podolia*, to propose a restraint of all Incursions on both sides, which ruine the Country without any advantage to the Princes their Masters. It is confirmed from *Moscow*, that the Czars are inclined to enter into the League between the Emperor, this Crown, and the Venetians. And that they have given leave to the Cossacks which are subject to them, to joyn with those in the Service of this Crown against the Turks.

Presburg, Aug. 19. We have Letters from the Imperial Camp before *Esperies* of the 12th Instant, which tell us, that the Besieged made a very obstinate defence, but that the Besiegers were notwithstanding advanced to the Ditch, which they had begun to fill with Fagots and Sacks of Wooll: That their Bombs had done great execution in the Town; That their Cannon had made two large Breaches, and that they would in a day or two make an Assault upon the place. That Count *Teckely* was dayly abandoned by those of his Party; That his whole strength consisted but in 1500 men, and that he hath not with all his sollicitations been able to obtain any assistance from the Turks.

Vienna, Aug. 26. We have an account that the Seraquier having rallied his Forces, and caused two Bassa's and four Aga's, with several other Officers who had not well behaved themselves in the Battle of *Gran*, to be Strangled, he marched to *Buda*, and passed the *Danube*, there declaring he would relieve *Newhensel* whatever it cost, but that soon after he received the News that the place was taken by Assault; however having formed a new Train of Artillery of 20 Pieces which he took out of *Buda*, and being reinforced with several fresh Troops, he marched towards *Vaccia*, and according to our last advice was encamped between that place and *Pest*. The Duke of *Lorrain* being informed of the Enemies motions, repassed the *Danube* with the Imperial Army the 24th Instant near *Comorra*, and advanced towards them, upon which the Elector of *Bavaria* has changed the thoughts he had of returning hither this
